## HOW TO USE THE SIZE CHART

Use a ring that fits you well on the finger, on which you would like to wear the Poul Havgaard Ring. Then you measure the inside diameter by placing the ring on top of the circles in the printed size chart. You must find the circle that matches the inside diameter of your ring.
The inner edge of the ring should align exactly with the circle, so the blue line is barely visible inside the ring. Try different options to assure your selection. If necessary, place the paper on a window against the light to see exactly the shape.
